*Christmas isn't Christmas without the
Messiah!*

Come and hear a performance of Handel's Messiah with a difference. Using the period instruments of the Corelli Orchestra and a small professional chorus - each of whose members will each take turns in 'step-out' solos - the light textures and subtle balance of this magnificent work will be revealed afresh. Previous audiences have been delighted: 'perfectly balanced and so clear', 'an intimate performance that worked very well' were comments received after last year's performances.

Why not join us and make this Messiah performance the start of your Christmas celebration ... mulled wine and mince pies will served in the interval.
